A. Resolutions and updates to be considered on April 4th

i) New topics

1. Cybersecurity

London & South East Region:

1. Notes that UN Secretary-General António Guterres, in introducing his priorities for 2020 to the General Assembly on 22 January 2020, referred to the dark side of the digital world and to the work of the two UN ongoing initiatives, the Open-Ended Working Group on information and telecommunications in the context of security (OEWG), and the Group of Government Experts on advancing responsible behaviour in cyberspace and within the General Assembly (GGE);
2. Notes further that the next Commonwealth Heads of Government Meeting (CHOGM) in May 2020 intends to review policies developed since the Commonwealth Cyber Declaration (2018);
3. Fears that the coexistence of the OEWG and the GGE points to rival ideologies more than to a concerted effort to reach agreement to benefit all UN Member States, large and small.

The Region calls on the UK government:

4. To take a stance in UN-led negotiations which primarily seeks to protect the victims of aggressive cyber-attacks;
5. To assist all Commonwealth Nations implementing national cybersecurity capacity reviews in order to become more cyber secure.

Proposed: Westminster branch

2. Hong Kong Special Administrative Region (SAR)

UNA London and South East Region notes:

1. The deterioration of civil and political rights in Hong Kong and the challenges facing the 'one country, two systems' model agreed between the UK and China in 1984;
2. The mass peaceful protests for democracy and full implementation of the Basic Law, exercising fundamental rights to freedom of assembly and expression.

The Region expresses deep concern about:

3. Incidents of violence on all sides;
4. The sentencing of pro-democracy demonstrators and reports of police violence in HK in contravention of the Sino-British declaration.

The Region urges the UK Government:

5. To work with the Chinese government to fulfil the promises made during the handover;
6. To call for open dialogue between the Hong Kong authorities and people on this sensitive issue;
7. To grant UK residence to those with British National (Overseas) Citizenship in Hong Kong;
8. To restate the UK governments' moral and legal responsibility to support democracy, the rule of law and human rights in Hong Kong;
9. To suspend (with our partners) all crowd control equipment export licenses to Hong Kong.

And to work with the UN and all member states:

10. To call for an immediate end to violence;

11. To ask the authorities for restraint and to protect the human rights and freedoms in the Basic Law;
12. To appoint a UN special rapporteur to investigate claims that demonstrators faced excessive force.

Proposed by Marguerita Morton, individual member.

3. Proposed laws restricting boycotts divestment or sanctions

UNA London and South East Region believes that:

1. Boycott, Divestment and Sanctions (BDS) actions by public bodies or individuals with a legal or moral motivation may be justifiable whether directed at the Israeli government, other countries or at private corporations;
2. Honourable precedents exist, including apartheid South Africa/Rhodesia and Nestle (over baby milk);
3. Laws that outlaw such actions may be incompatible with the right to freedom of speech and expression;
4. Many opponents of the Israeli government's actions towards Palestinians (including Palestinians and their Jewish supporters) are responding to well-documented human rights infringements identified by the UN and others as incompatibility with international law, the Universal Declaration of Human Rights, and Chapter VII of the UN Charter. They should not be labelled as anti-Semitic for doing so.

The Region urges the UK Government:

5. to withdraw plans to prohibit public bodies from supporting BDS campaigns in relation to any country
6. to avoid defining opposition to Israeli government policies as automatically anti-Semitic;
7. not to infringe the rights to freedom of speech and self-expression on international issues that have a legal or moral basis.

Proposed: by Executive Committee of UNA London and SE Region

4. Syria

London & South East Region:

1. Deeply concerned at the on-going suffering and misery of the Syrian people in the nine-year civil war and the scattering of many Syrians to other countries;
2. Particularly concerned at the intolerable position of those currently living in the Idlib province.

The Region demands that Security Council, led by the P5 working in partnership,

1. Instructs the re-opening of all necessary crossing points into the Idlib region;
2. Demand the end of attacks of medical centres, in line with Security Council Resolutions 1674 and 2286, whereby it not only condemns attacks but also demands compliance with international humanitarian law in armed conflict,
3. Convene a meeting of its members before the end of June, within the Idlib region, to demonstrate to the global community that, after 75 years, its members continue to honour and uphold the principles underpinning the creation of the United Nations as set out in the Preamble to its Charter.

Proposed: Westminster branch

ii) Updated or amended motions

5. Climate

~~London and South East Region notes:~~

- ~~1. The commitments made by leaders in both the political and the business world at the San Francisco Climate Action Summit;~~
- ~~2. The report of the Bangkok UNFCCC Climate Change Conference which called for a 1.5% cap on carbon emissions.~~

~~The Region calls on the UK Government:~~

- ~~3. To adopt strategy across government for implementing the Paris Agreement;~~
- ~~4. To appoint a cabinet minister whose priority is climate change;~~
- ~~5. To publish a "Clean Growth Plan" as soon as possible;~~
- ~~6. To take further action to persuade the US not to leave the Paris Agreement (noting the 4th national climate assessment published by the US global change research programme in November 2018);~~
- ~~7. To adopt a more ambitious and urgent plan to phase out petrol/diesel vehicles and fossil fuel subsidies as being inconsistent with SDGs and Paris Agreement;~~
- ~~8. To encourage investment in known technologies that can ensure carbon capture, and clean renewable energy;~~
- ~~9. To include all emissions including military activity in climate accounting and action.~~

Agreed 24th November 2018

Replace with

London and South East Region of UNA:

- Notes that climate impacts are rising rapidly, affecting people and wildlife;
- Notes that while fires, floods and droughts linked to climate change are increasingly widespread, the worst effects are felt in developing countries, who have been least responsible for its causes;
- Recognises that, from 2008 to 2019, the UK cut its territorial emissions by one-third, while the economy was still growing; and welcomes the net zero target for 2050 adopted in 2019 and the 2035 phase out of internal combustion engines for new cars;
- Notes that the UK still finances fossil fuel investments abroad.

Amendment A1: Notes the potential impact of population growth on climate

The Region calls upon the international community at COP 26:

- To ensure the voices of most vulnerable from impacted countries and communities are heard and responded to;
- To prioritise **Amendment B: the Stewardship of fresh water resources and** the protection of ecosystems as huge carbon stores of benefit to the climate, communities and wildlife.

In addition, the Region calls upon the UK government:

- To lead a just transition to a zero-carbon world by 2050 limiting global temperature rise to 1.5°C;
- To put our Nationally Determined Contributions (NDCs) on track to net-zero and adopt policies, laws and investment approaches to match.
- To use its diplomatic weight to close the gap between existing Paris Agreement pledges for 2030 and those needed to limit global temperature rise to 1.5° C and to persuade the US to reverse its decision to leave the Paris Agreement;

10. To champion increased, targeted financial support to cope with climate change impacts for those countries and communities who need it most;
11. to halt all new investments in coal, oil and gas overseas, reviewing and phasing out existing investments and to achieve universal access to energy by scaling up support for renewable and efficient energy systems and for carbon capture;
12. To include the emissions from military activity in climate accounting and action.

Amendment A2: to aim to stabilize our own population through advocacy of smaller families and to increase its assistance to family planning in developing countries.

Amendment A: proposed by Keith Hindell

Amendment B: proposed by Susan Tirbutt

Amendment C: proposed by Stuart Neaverson

Proposed by London & South East Region Executive Committee

6. Nuclear weapons

London & South East Region:

1. Applauds the adoption of the UN Treaty on the Prohibition of Nuclear Weapons (7th July 2017) by 122 member states which prohibits a full range of nuclear-weapon-related activities and gives nuclear weapons a similar legal status to biological and chemical weapons and prohibits the production, testing, use, threat of use, and assisting other groups in such actions;
2. Congratulates the International Campaign to Abolish Nuclear Weapons (ICAN) on being awarded the 2017 Nobel Peace Prize for its work towards this end;
3. Regrets that despite being committed, since 1968, to negotiating the elimination of all nuclear weapons 'in good faith' by Article V1 of the Nuclear Non Proliferation Treaty the UK Government refused to participate in the multilateral negotiations leading to the treaty and ~~Prime Minister Theresa May~~ has been dismissive of any suggestion that this country should sign up to it;
4. Welcomes the joint statement by UNA-UK and the British American Security Information Council (BASIC) which criticised the UK government's failure to attend the Treaty conference, indicating a degree of indifference to the concerns of the 122 states who signed the treaty and setting a poor example to other nations;
5. Urges the UK government to attend future UN-led meetings which seek to take the Treaty forward ~~including the planned High Level Conference in May 2018~~;
6. Further urges the UK government to give full support to this treaty: to sign and then ratify as soon as possible;
7. Notes that the UK government plans to replace our own nuclear weapons that will continue to be wholly dependent on a regular supply of missiles from, and regular maintenance by, the United States at a cost, including construction and running, of over £200 billion;
8. Calls upon the UK Government to cancel the current Trident replacement contracts, to spend the billions of pounds saved on real human needs, both here and abroad and publicly reactivate its commitment to the NPT.

Agreed 25th November 2017 and amended 24th November 2018
~~Removal of dated references proposed by the Policy Committee~~

7. Palestine 100 years after the Balfour Declaration

London & South East Region:

1. Notes that November 2017 marked the centenary of the Balfour Declaration by the UK Government about the future of Palestine as a shared Jewish and Arab homeland which established the “dual obligation” that became part of the League of Nations Mandate for Palestine:
 - (i) the establishment in Palestine of a national home for Jewish people ...;
 - (ii) the clear understanding that nothing shall be done which may prejudice the civil and religious rights of existing non-Jewish communities in Palestine;
2. Believes that attention should be drawn to failure to respect or carry out the second part of the dual obligation as the land allocated to Palestinians has dwindled to tiny broken-up areas, and over 620,000 settlers live in illegal Israeli settlements built on Palestinian land;
3. Whilst acknowledging Israel’s right to full membership of the UN, urges the UK government to work at the UN to achieve the recognition of the rights of Palestinians to be full citizens of a sovereign UN member state;
4. Opposes the continuation of the occupation and further settlement activity and any attempt at annexation of the Occupied Territories by Israel ~~to annex any part of Area C as solutions to the conflict;~~
5. Urges the UK Government to encourage the Israeli government at the UN to give Palestinians now living in Israel and the Occupied Palestinian Territory the same rights as their Jewish neighbours to ensure greater trust between both communities as a first step towards a more long term durable resolution of the conflict.

Agreed 26th May 2018

Update amendment proposed by Policy Committee

8. Sri Lanka

London & South East Region:

13. Notes that it is ~~8-11~~ years since the war in Sri Lanka ended and the hardships and distress of the North and East people, especially widows, is the same as before, and that restrictions on freedom of expression remain;
- ~~14.~~ Regrets the decision **Amendment D1** of the recently elected Sri Lankan government in February 2020. **Amendment D2** by the recently elected President to withdraw from the UN Human Rights Council’s resolution 30/1 on reconciliation, accountability and human rights in Sri Lanka.
- ~~14-15.~~ _____ Calls upon the UK government to press for rapid implementation of calls for an international, independent judicial investigation in line with the UN Human Rights Council resolution of 2015 into the crimes committed by both parties (i.e Sri Lanka Government and Liberation Tigers of Tamil Ealam [LTTE]) to expedite the Peace and Reconciliation Process;
- ~~15-16.~~ _____ Believes that such international involvement will help the people in the North and East to build some trust and faith in the outcome of the investigation.

14. How did Dag Hammarskjöld die?

London & South East Region

1. Notes that the UN General Assembly reached an open verdict (1962) on the causes of the crash of the plane carrying the UN Secretary General Dag Hammarskjöld on a peace mission in the Congo in 1961, making possible an independent UK-led inquiry in 2013;

(Global Scorecard reference added by Policy Committee)

16. Localising the SDGs

London and South East Region notes that:

1. The UK Government is committed to implement the 17 Sustainable Development Goals (SDGs) and their 169 targets internationally, but also domestically;

1. That the murder of Jamal Khashoggi is a shocking reminder that journalists worldwide are frequently victims of governments and other hostile forces who resent criticism and exposure;
2. That since 1990, 3,000 journalists have been killed. In addition many have been kidnapped for ransom and hundreds are "detained" by governments e.g. Turkey;
3. Yet honest journalism and freedom of the media is part of the lifeblood of any state. Even autocrats need to know what is going on, what policies are effective, which public servants are corrupt and which ordinary criminals are still at large.

The Region calls on the UK Government:

4. To insist on the protection of journalists and their work in bi-lateral diplomacy with offending states, and also in the UN whose Plan of Action for the Safety of Journalists has been endorsed by UNESCO, the Human Rights Council and throughout the UN system.

Calls upon the UK government to:

1. Apply a human rights approach as the framework for future work on Women Peace & Security including economic and social rights rather than focussing solely on security considerations;

2. Include the post conflict situation in Northern Ireland within the scope of work on Women Peace & Security;
3. Identify and take steps in the way the Arms Trade Treaty is implemented to further the Women, Peace and Security agenda;

Agreed 10th March 2018

C. Historic resolutions to be removed from current list

21. Asia Bibi case

London and South East Region:

1. Notes that Prime Minister Imran Khan's 'Naya Pakistan' formula made no mention of religious minorities, marginalised communities, attacks on women and religious intolerance;
2. Congratulates him, however, on his promise to resolve outstanding court cases within a year, and thus;
3. Welcomes the decision of Pakistan's Supreme Court to acquit Asia Bibi, ending her eight years in remand awaiting review of her case;

The Region calls upon the UK Government:

5. To grant asylum immediately to Asia Bibi and her immediate family;
6. To make the strongest possible representations to the Pakistan Government.

The Region further calls upon the Office of the High Commissioner for Human Rights and the UN Human Rights Council to consider this matter at the earliest opportunity.

Agreed 24th November 2018

22. North Korea

London & South East Region:

1. Notes the dangerous degree of hostility and climate of fear on the North Korean issue;
2. Calls upon the UN to accept the fact that North Korea is a nuclear power;
3. Believes that along with all other nuclear powers, North Korea must commit itself formally and irrevocably to a no-first-strike policy;
4. Believes that provided this is agreed and acceded to, in order to assist North Korea to move towards prosperity, and to ensure that the country becomes part of the international community, sanctions against North Korea should begin to be phased out, and aid provided to mitigate the current hardship experienced by vulnerable groups;
5. Believes further that as part of the agreement, all sides should stop issuing threats and drop the unproductive and provocative war games in the region;
6. Believes all sides should take part in meaningful talks to reduce tension and produce meaningful outcomes.

Agreed 25th November 2017

23. UN reform

London & South East Region:

1. Applauds the efforts of the UN Secretary-General in leading reform initiatives as set out in his annual report on the UN's work (see below for summary);
2. Regrets the UK Prime Minister's comments at this year's General Assembly that Britain could withhold up to 30% of its £90m core funding each year unless the organisation and its agencies reform by 'showing they are efficient and transparent (so) they may win our trust';
3. Challenges the grounds and evidence for that assessment;
4. Acknowledges the need for further improvements to UN operations and performance but noting that this will not be achieved through grandstanding and uncritical adherence to US policy positions;
5. Expects the UK, which enjoys privileged status at the UN, to take a constructive lead in UN reform through example, and;
6. To report periodically to the UK public through the FCO website on progress made in these efforts.
